

Akhil Agrawal

Principal Frontend Engineer

✉ akhilagrawal186@gmail.com
☎ +91 7891659381
📍 Bengaluru - India
📅 1991-10-19
📄 Holding a valid USA B1/B2 Visa (Business/Tourist)

🧠 CORE SKILLS

Frontend Technologies

HTML5, CSS3 (SCSS, SASS, LESS),
JavaScript (ES6+), TypeScript

Frameworks & Libraries

Angular (v2-19),, NgRx, RxJS, NodeJS

Web Architecture & Patterns

Micro-Frontend Architecture, UI
Architecture Design, Component
Framework Design, HTTP Protocol &
Caching, Concurrency & Async Patterns,
Reusable Design Systems, Browser
Rendering & Event Loop, SSR, Code
Splitting, Lazy Loading, BFF Pattern.

Performance & Quality

Web Performance Optimization, Audits,
Cross-Browser Compatibility, ESLint,
Sonar, Complexity analysis

Accessibility

WCAG 2.x Compliance, Screen Reader
Support

APIs & Data

RESTful APIs, Async Programming

Testing

Cypress, karma-Jasmine, Unit Testing,
E2E Testing

Tooling & DevOps

Git, Webpack, CI/CD Pipelines, Docker,
Github Copilot, Cursor, Windsurf

📄 PROFILE SUMMARY

Principal Full Stack Engineer with 10+ years of experience building scalable web applications using Angular, TypeScript, and Node.js. Strong foundation in system design, data structures, browser-server interactions, and performance optimization. Proven expertise in developing reusable UI architectures, robust APIs, and data-driven systems within micro-services environments. Hands-on experience across the stack, including BFF layers, automation, and cloud-based deployments. Recognized for driving end-to-end ownership, improving code quality, and mentoring engineers while delivering high-impact, performant, and accessible solutions.

📁 PROFESSIONAL EXPERIENCE

Onetrust Privacy Software

Principal Software Engineer Oct/2021 - Present

- Led hands-on development and technical direction of large-scale, enterprise web applications serving customers, partners, and internal users.
- Architected and implemented scalable, reusable frontend platforms using Angular with TypeScript, focusing on component abstraction, state management, and performance optimization.
- Designed and evolved shared design systems and UI component libraries, improving consistency, accessibility, and development velocity across multiple teams.
- Optimized frontend performance using lazy loading, code splitting, caching strategies, and webpack driven improvements, improving page load times by ~20% and reducing UX-related production bugs by upto 40%.
- Performed in-depth browser profiling using Chrome DevTools to analyze rendering bottlenecks, memory leaks, and network performance, improving interaction latency and load performance.

NetApp India

Member of Technical Staff Jan/2019 - Oct/2021

- Built modular, reusable UI components using Angular, TypeScript, and ES6+, improving maintainability and scalability.

Cisco Systems

Consultant Engineer May/2016 - Jan/2019

- Designed and implemented single-page applications (SPA) with a strong focus on performance, usability, and maintainability.

Hirecraft Software Pvt Ltd

Associate Software Engineer Aug/2015 - May/2016

- Actively contributed as a team member in the development and testing of multiple features within the TALLINT product.

🎓 EDUCATION

Bachelors in Information Technology

Rajasthan Technical University

08/2010 - 05/2014
